

Call for Papers: Ethiopian Electric Power

Internal/External Call for Research Papers for Dam Sedimentation in Hydropower Plants

The Ethiopian Electric Power, Ethio-Power Academy, is pleased to announce an upcoming Research Conference focused on the critical theme of Dam Sedimentation Issues in Hydropower Plants. We are inviting EEP staffs or external researchers, academicians, professionals, and students to submit their research works, case studies, and technical papers addressing this important topic.

1. Conference Theme: Dam Sedimentation Challenges and Solutions in Hydropower Plants.

2. Submission Guidelines:

2.1. Interested individuals are requested to submit their research papers via email to (bitweded.gebrealif@eep.com.et). For more information or clarification, you may contact us at Cellphone: 911682655.

2.2. The submission deadline is September 15, 2025.

2.3. All submitted papers will be evaluated by a review committee, and selected papers will be presented at the conference.

2.4. We encourage original, practical, and innovative works that contribute to the understanding, analysis, and mitigation of sedimentation in hydropower dams in Ethiopia and beyond.

We look forward to your valuable contributions and active participation in this important academic and professional dialogue.

Sincerely,

Wondwossen Kassa (Ph.D)

Ethio-Power Academy Director
